2012 SHELBY 1000

In the desert of Las Vegas, the R&D team at Shelby American is continuously in search of the ultimate Shelby. Led by the mantra of our founder, Carroll Shelby, our most favorite car is always the next one. Shelby American is proud to bring you the ultimate Shelby, the Shelby 1000. Custom built by hand, and in very limited quantities, with only the finest high performance components available today. This is the standard by which all other muscle cars will be measured and special enough to receive its own branding. Don't be fooled by its understated looks. Many hours of research and development have gone into the finer workings of engine, drive line, chassis and fuel delivery systems. Shelby 1000 When 800 HP is not enough! Send us your 2012 GT500 today!
